

Suited by Iznik

Discover the past through innovation and design.

Traditional handicraft meets innovative design.

Suit'd® Suits

Dutch design brand Suit'd® Suits (est. 2012) develops, designs and co-produces fully equipped power outlet covers made of natural materials including bamboo, plexwood® and porcelain. Its universal covers fit the vast majority of the build-in electrical systems currently on the international market. In addition to distribution via its own sales channels and retail partners, Suit'd® Suits products are being supplied to the business-to-business markets via its strategic partner Hager (est. 1955).

Iznik Tiles and Ceramics

Based in Istanbul and Amsterdam, Iznik Tiles and Ceramics produces handmade quartz tiles and ceramic products made in the tradition of 16th century Ottoman artisans in the city of Iznik, Turkey. Iznik Netherlands is the European branch of the Iznik Foundation (est. 1993) which together with its partners was responsible for the revival of the art of Iznik tile-making at the beginning of the 1990's. In addition to the production of vases, plates, bowls and various other ceramic items, the core business of the company lies in tile murals and tile furniture in both traditional as well as contemporary designs.

Hager Group

Hager is a leading supplier of solutions and services for electrical installations in residential, commercial and industrial buildings. As part of Hager Group, Hager has clients in 129 countries worldwide and over 11 thousand employees.

Under its subsidiary Berker, Hager offers a premium brand in wiring accessories. Design and authenticity are key features of its innovative products. For the development of its luxurious and custom products, Hager collaborates with premium partners in the field. Together they create astonishing outlets and switches that correspond harmoniously with the interior of its clients.

A new collaboration is born.

In 2016, Turkish ceramics manufacturer Iznik Tiles and Ceramics and Suit'd® Suits started collaborating. With the co-creation of the 'Suited by Iznik' power outlet covers, the traditional handicraft of Turkish ceramics was combined with the innovative products and designs of Dutch design label Suit'd® Suits.

In November 2016, the collaboration was officially marked with a celebration launch at X BANK Concept Store in Amsterdam, showcasing a first product range Suit'd® Suits by Iznik. The collaboration is focussing on the European and Middle Eastern Markets.

Product Lines

The Suit'd® Suits **Cover Model** has been developed to fit the standard wall parts of type C, E and F build-in power outlets and switches or related products and covers the plastic center part.

The Suit'd® Suits **Frame Model** fits the external part of a wide variety of wiring accessories. These frames are available in the following ceramic Berker series:

Berker R.1 plate with smooth edges assembled on a plastic frame.

Berker R.3 tile with straight edges assembled with an inner plastic part.

Berker Q7 frame with smooth edges assembled with an inner plastic center.

Design Lines

The exclusive handpainted 'Suited by Iznik' covers are available in two limited edition design lines: a wide range of **unicolor designs** based on the powerful colors of Iznik ceramic art. In addition we offer a selection of **15 Iznik designs**, ranging from tulips to geometrical motifs. In addition, clients can personalize the cover designs to their every need, fully adjusted to their project characteristics. All cover designs are underglazed and available in both glossy and matt finishes.
